Mr. CONNESS called up the bill making eight hours a day's work for laborers and mechanics in government employ.

Mr. SHERMAN moved to amend by inserting a proviso that unless otherwise provided by law the rate of wages paid by the United States shall be the current rate for the same labor for the same time at the place of employment.

After discussion the amendment was rejected—16 to 21.

Yeas—Messrs. Buckalew, Chandler, Cole, Conness, Cragin, Dixon, Doolittle, Fowler, Harlan, Hendricks, Howard, McCreery, McDonald, Morton, Nye, Patterson, (N. H.) Patterson, (Tenn.) Ramsey, Ross, Stewart, Thayer, Tipton, Wade, Williams, Wilson. Yates.

Nays—Messrs. Corbett, Davis, Edmunds, Ferry, Fessenden, Morgan, Morrill, (Vt.) Ramsey, Sherman, Sumner, Van Winkle.

The special order, the legislative appropriation bill, was taken up, the question being on the amendment by the Committee on Appropriations to the House bill.

The amendment appropriating twenty thousand dollars for the Department of Education was agreed to. Several minor amendments were also agreed to.

Mr. SHERMAN, from the Committee on Finance, reported an amendment increasing the appropriation for salaries and expenses of Internal Revenue administration from six millions to eight millions, which was agreed to.

Also, amendments increasing incidental appropriation for Secretary of the Treasury's office to one hundred thousand, and appropriating one hundred and fifty thousand for temporary clerks in the Treasury Department. The former was agreed to. The latter occasioned debate until adjournment, which, on account of Senator Henderson's wedding, was ordered to 2 o'clock to-morrow.

HOUSE OF REPRESENTATIVES.

The SPEAKER presented a message from the President, with a report of the Secretary of State relative to the cases of Warren and Costella, sentenced to penal imprisonment in England. Referred.

Mr. SCHOFIELD reported from the Committee on Elections that the credentials of the Arkansas Representatives were in proper form, with a resolution directing the administration of the oath of office.

Mr. BROOKS presented a protest.

The resolution was adopted—101 against 27—and the members were sworn.

The protest presented by Mr. BROOKS, which is signed by all the Democratic members, and is lengthy, was read. It concludes as follows: "We, representatives of the people from the free States, in behalf of our constituents earnestly and solemnly protest against this violence upon our Constitution and upon our people, and do hereby counsel and advise all friends of popular government to submit to this force and fraud only until at the ballot-box, operating through elections, this great wrong can be put right. There is no law in the land over the Constitutional law; there is no government but Constitutional government; and hence all bayonet-made, all Congress-imposed Constitutions are of no weight, authority or sanction, save that enforced by arms, an element of power unknown to Americans in peace and never required but as it acts in and under the supreme civil law, the Constitution and statutes enacted in pursuance thereof. We protest, then, in behalf of the free people of the North and West, against the right of this military oligarchy, established in Arkansas or elsewhere in the now reënslaved state of the South, to impose upon us, through Congress, taxes or customs or other laws to maintain this oligarchy or its Freedmen's Bureau. We protest against going into the proposed copartnership of military dictators and negroes in the administration of this Government. We demand in the name of the Fathers of the Constitution and for the sake of posterity, not its reconstruction, but the restoration of that sacred instrument which has been to all of us a fire pillar from 1787 onto its present overthrow. And in all solemnity, before God and man, under a full sense of the responsibility of all we utter, we do hereby fix our names to this protest against the admission of these three persons claiming to be members of Congress from Arkansas."

The House went into Committee of the Whole on the tax bill.

Mr. HARDING'S amendment, offered yesterday, was rejected.

No amendments were made to section eleventh, which prohibits distillation in breweries or sugar refineries.

Section twelfth was amended by making the tax on registered distilleries, on mashing and fermenting capacity, as follows: On the first twenty bushels of grain or sixty gallons of molasses or less in twenty-four hours, two dollars for every similar excess of that amount.

On motion of Mr. SCHENCK, the Committee rose, and the House ordered all debate on the bill closed down to section forty-third.

The House again went into Committee.

Motions to strike out the twenty-ninth and thirty-third sections were rejected.

No amendments other than verbal were made to sections from twelfth to forty-sixth, all relating to distillation.

Mr. LOGAN, from the Committee on Ways and Means, offered three new sections, to come after section forty-sixth: the first providing for the appointment by the Secretary of the Treasury, on the recommendation of the Commissioner of Internal Revenue, of one officer for each United States Judicial District, to be called a Supervisor of Internal Revenue on distilled spirits and tobacco; the second directing that no general or special agent of the Treasury Department, in connection with the Internal Revenue, except as provided for by this act, shall be appointed by the Commissioner, employed or retained in office; and the third declaring that no Assessor shall be authorized to enter any district than the one for which he has been appointed for the purpose of exercising authority.

After explanation the second and third sections were agreed to.

Mr. KOONTZ moved to amend the forty-seventh section by providing that the compensation of internal revenue storekeepers be paid by the United States Agreed to.

At Mr. JUDD'S suggestion the amendment offered to the first section of the bill, which was left undisposed of, was taken up. It was modified to read as follows and adopted:

Add to the requirement of the payment of fifty cents taxes on every gallon by the distiller, owner or any person having possession thereof the words "before removal from the distillery warehouse." This allows no exceptions.

Mr. BOUTWELL offered an amendment to the forty-ninth section, providing that the business of distilling alcohol and spirituous liquors for exportation may be authorized by the Secretary of the Treasury on application of distillers, and that distilleries not so authorized shall not distil for export.

After discussion, and without action, the Committee took a recess.

EVENING SESSION.

The House in Committee of the Whole resumed the consideration of the tax bill.

Mr. LOGAN offered a substitute for Mr. Boutwell's amendment, allowing a drawback on spirits.

On a division no quorum voted, and the Committee rising, there was a call of the House and absentees were brought in.

A quorum being obtained after nearly an an hour's delay, the Committee of the Whole resumed the consideration of the bill.

Mr. LOGAN advocated his amendment.

Mr. SCHENCK opposed it. The former, at the suggestion of Mr. Allison, modifying the amendment so that the amount of drawback shall not exceed fifty cents per gallon, it was then adopted—53 to 46.

The question recurring on Mr. Boutwell's amendment as amended by Mr. Logan.

Mr. BROOMALL proposed to amend by providing the drawback shall not exceed the actual tax paid. Rejected.

Mr. INGERSOLL moved to amend by adding to the allowance of drawback the interest on the amount of tax paid. This was lost, and Mr. Boutwell's amendment was rejected.

On motion of Mr. LOGAN, the forty-ninth section, regulating the exportation of distilled spirits, was struck out.

The fiftieth section, authorizing bonded warehouses at ports of entry being read, Mr. PRICE moved an amendment, providing that no whiskey shall be removed from the place of distillation until the tax has been paid.

Without action the Committee rose.

The SPEAKER presented several executive communications.

The SPEAKER stated he had decided the Arkansas members should receive pay from the 13th of March, the day of their election; but as they claim pay from the beginning of Congress, he would refer the matter to the Judiciary Committee.

Mr. BUTLER introduced a joint resolution relating to fisheries. Referred to Naval Committee.

Adjourned.

Donaldson, of the steamer Great Republic, was found guilty to-day by a Coroner's jury of killing a negro named Henry Henderson, about one o'clock this morning on board the steamer Great Republic. From the evidence it seems Henderson, the texas tender, was put in irons between Memphis and Cairo for mutinous conduct and confined in the baggage-room. Another boy, named Lawrence Glover, was also ironed and confined for refusing to scrub when ordered to do so by the steward. On the arrival of the boat at the levee a little after midnight, Captain Donaldson went to the baggage-room drunk, with a pistol in each hand, and after some talk with Henderson, shot him through the head. Donaldson left the boat immediately afterwards, but did not try to escape, and was arrested to-day and held for examination on a charge of murder. There is some mystery involved in the affair, which will probably be cleared up at the examination before the Police Court to-morrow.

TOPICS AND GOSSIP AT THE CAPITAL.

President Johnson received a dispatch from Jackson stating that Mississippi has gone Democratic by a large majority. The Constitution is defeated, the people repel the reconstruction acts of Congress, and Jeff. Davis' State endorses him and his course fully.

Mr. Evarts has consented to accept the office of Attorney General, and there is but little doubt that he will be confirmed. Gen. Butler is working against this.

President Johnson has had an elaborate proclamation of general amnesty drawn up by Mr. Evarts, Mr. Groesbeck, Judge Curtis and Judge Cushing, which he has considered and will issue on the Fourth of July. He believes it will be considered in all future time as the magna charter of the South and a token of magnanimity of the Government and the Northern masses.

The passage of that part of the tax bill reducing the whisky tax to fifty cents is a substantial triumph of the whisky dealers' association, which was in session here during the winter, and whose members then fruitlessly wrought with the Committee on Ways and Means to obtain a report to the House in favor of a reduction of the tax to seventy-five cents. The Committee intimate that their views were changed by reason of developments in the Butler inquisitorial investigation, especially with regard to the transactions with Wooley and his coadjutors.

The Senate has rejected the nomination of Hon. S. S. Cox as Minister to Austria. Mr. Cox, it is said, will run for Congress in the Sixth district of New York.

The Senate agreed with the President in the suspension and removal of Anderson, Collector, and Patterson, Assessor of Internal Revenue, in Virginia. These men were some days ago sentenced by Chief Justice Chase for violation of the revenue law.

Gen. Grant will not leave here for St. Louis until after the final passage of the Omnibus bill for the admission of the reconstructed States, and he gives such orders as are needed for the military commanders in those States. The *Intelligencer* made another attack on Mr. McCulloch this morning, saying that the fact is becoming perfectly apparent that it is his intention to remain at the head of the Treasury Department in open defiance of the wishes of the President and that he should tender his resignation. The article says that Mr. McCulloch intends to follow the footsteps of Stanton and remain in office until the President makes a direct removal.

In he House, on assembling, the Committee on Elections reported unanimously in favor of the admission of Arkansas members. Mr. Brooks entered a written protest signed by all the Democratic members, against the admission of these representatives. The report of the Election Committee was then adopted by a strictly party vote, and the new members appeared at the bar and took the oath of office.

In the Senate, the first business that came up was the bill making eight hours in Government workshops a day's work. Mr. Sherman proposed an amendment that the wages of laborers and workmen should be correspondingly reduced if the time was cut down from ten to eight hours. A number of speeches were made both for and against the bill. And it is likely to be discussed during the most of the day. The Senate finally rejected Sherman's amendment, and the original bill was passed by a majority of six votes.

He threatens to bombard the city rather than let the insurgents get possession. He threatens the same thing if any foreigners are caught introducing warlike material or stores, and he has so notified the foreign Consuls. It is stated his army consists of only seven hundred men and three hundred cyprians. Solnave insults all foreigners but Americans. An English bearer of dispatches was maltreated by him and afterwards put in prison. Gen. Fanbert attacked Fort Alexander four days ago, and forty of his troops were killed and wounded. Among the latter was General Narcisse. Solnave refuses all parley, and is determined not to relinquish the Presidency till compelled to.

—The corner stone of the new Masonic temple in Philadelphia was laid with appropriate ceremonies on Wednesday, Hon. Richard Vaux, Grand Master, Hon. R. A. Lamberton, Deputy Grand Master, Samuel C. Perkins, Senior Warden, and Charles Schinder, Grand Tyler, officiating, assested by Pastmasters, Hon. Henry M. Phillips, John Thompson, James Page and others. After the stone was laid the Grand Master delivered the oration, and the demonstration was concluded at half past two o'clock. A banquet was held in the evening.

—Mrs. Ernestine Oakes, wife of the late Henry Steinway, on Tuesday applied to the Supreme Court of Brooklyn, N. Y., for a writ of *habeas corpus* directing William Steinway, the piano-forte manufacturer, to produce her children, whom she alleges have been unlawfully withheld from her by the respondent and placed in charge of a petty magistrate in Germany. Judge Gilbert ordered the writ to be issued, and the case will shortly be brought before the Court, when singular developments are expected.

—The President is again pardoning counterfeiters, forgers, and Rebels. Thomas Fitzgerald, who was sentenced to prison for one year in Maine for assault and battery; Alfred Delastasins, who was convicted of making counterfeit mail-bag keys, and sentenced to penitentiary for three years, and H. Heith, an ex-Major-General of the Rebel army, are the latest objects of Executive clemency.

—The Flouring mill of Cockrill & Lykins, Platte City, Mo., was totally destroyed on Sunday morning. A woolen mill belonging to Mr. Battersby, in the same building, was also destroyed. Total loss $20,000; no insurance.

The Pittsburgh Gazette.

THE MEADOW PATH.

It leads, in many a tangled curve,
Through reedy fen and yielding mosses,
To where, through rushes rank and green,
On stepping stones the brook it crosses:
It circles in and circles out,
By ferny fell and wooded passes,
And hides away, in sudden sport,
Beneath the bush and tangled grasses.

It skirts the upland's shallow pool
With many a graceful scoop and hollow,
And runs away, on bare brown feet,
The faster, as you faster follow!
It sweeps along the fallow ridge,
In countless eddying curves and narrows,
And, swooping in and swooping out,
It frights the wee brown breasted sparrows.

It flits away with dainty grace,
Through spongy marsh and sandy shallows,
And dons the cardinals gay hood,
To brighten up its barren fallows;
It braids the king-cup's golden bells,
Like stars, amid its floating tresses,
And, circling in and circling out,
It dies at last among its cresses.

—Here in Pittsburgh, the home of the Strawberry, the cheapest are fifteen cents per quart, while in Philadelphia, whither tons of our Strawberries go, they are a drug at eight or ten cents a quart. The mystery is why our fruiterers export their produce under existing circumstances.

—The Pendleton escort is coming through Pittsburgh. As it is pretty large, if they would be persuaded to stop over, there might be enough Democrats in town to get up a good sized meeting, and they have shown that they are as good at kicking up a row as the best convention delegate in the city.

—Considerable displeasure is manifested, in the principal North German cities, at the great inefficiency displayed by the United States Consuls. —On Monday night while the election for Democratic delegates to the New York Convention was going on in Philadelphia a man named Gallen was attacked, stabbed four times and shot at once; he died during the night. —M'lle Hedwig Raabe, the German actress, who will visit the United States within the next two months, is a beautiful blonde, with large blue eyes and long golden ringlets. She is the pet actress of the Russian Court, and the Czar's second son was at one time so desperately in love with her that he insisted upon marrying her, a project which his parents were hardly able to thwart.

—Madame Rattazzi has in press a new novel, which will create a great sensation, inasmuch as it is nothing less than a clever, but malicious, satire on her mortal enemy, the Empress Eugenie. Eugenie once called Madame Rattazzi "an old coquette," and the ex-Princess of Solms is now going to pay her back, principal and compound interest. The title of the novel will be "The Empress Bibi." Bibi is the name of Eugenie's favorite Bologna dog.

—The Tomahawk's "Woman's Wordbook" continues spicy. It gives: Position—nine points of woman's law; Posterity—a grandson who blushes for the ignorance of his ancestor who slaved to such little effect; Powder—what woman loads herself with to make a ball go off well: Quack—a duck of a doctor; Quarter—what no man gets from a better half; Reflection—that for which glasses were invented—woman couldn't really do it for herself.

—An association has been formed in Washington to be known as the "Howard Fraternal Union," composed entirely of colored men, whose object is to secure a homestead for General Howard as a testimonial from the colored people of the United States, for the valuable services that he has rendered the race. The scheme is to raise thirty thousand dollars from the colored people alone, no one person to be allowed to contribute more than one cent.

—Anna Dickinson's new novel which is so radical in it's social tendencies that she has with difficulty found a publisher, is said to be the story of a strong-minded, self-reliant woman, who lives to herself, as Sir Charles Grandison, according to his doting mamma, did for himself, and from an unaided and wholly unfriendless position rises to success and happiness without marriage. It is supposed to be rather autobiographical as the heroine is thought to be just what Anna thinks she is herself.

—With all his faults, the late Mr. Buchanan was a kind-hearted gentleman. An anecdote is told of him which sustains this assertion. He defended and succeeded in clearing a man who was accused of homicide, and then refused to take a fee, saying, "Do you take this money and move away; use it to begin life with again. Stop drinking and go to church; and that is the best way you can pay me." After many years that man came back prosperous and repentant to thank the lawyer for having been the cause of his reformation.

—*Le Follet* describes a toilet which it calls beautiful and original: Imagine a round skirt of *foulard carmelite*, ornamented below with two plaited flounces, which are bordered at the top by a fold of silver-gray silk. The upper skirt of silver-gray silk is looped back at the sides by bunches of *carmelite* colored ribbons. It is ornamented all round with a narrow fringe of the same shade, with a fold of one centimeter in width at the top. The cassock of *carmelite foulard* fits tight to the waist, and is looped back *en panniers* where the upper skirt ends. A long knot behind marks the center of these panniers that are much puffed. The tight-fitting sleeves of the lower waist are made of silver-gray silk.

RIVER NEWS.

The river continues to recede slowly at this point, with scant four feet in the channel by the Monongahela marks last evening. We had quite a rain storm on Tuesday night, accompanied with lightning and thunder, but yesterday it was clear and pleasant and seemingly settled.

There has been no arrivals since our last report, and the Lorena, for St. Louis, with a good trip, having all the freight she could take on boat and barge was the only departure.

The Messenger, from St. Louis, and the J. N. McCullough, from Cincinnati, are both due here to-day.

Business was moderately active at the landing yesterday, though there is plenty of room for improvement.

The Kate Robinson, in charge of the vetteran, Capt. John Shunk, is filling up steadily for St. Louis, and she is announced to take her departure to-morrow. Messrs. Palmer and Wherry are associated together in the office.

The St. Charles has withdrawn from the Pittsburgh and Cincinnati packet trade, and laid up at the latter place. The R. C. Gray and Argosy are also laid up at Cincinnati.

The Leonidas and America, are enroute from St. Louis to Pittsburgh, and both have passed by Cincinnati.

The Charmer, Capt. Lew Vandergritt, with Isaac R. Whittaker, in the office, is announced for St. Louis forthwith.

The Camelia, Captain Wm. Dean, is announced for St. Louis forthwith. As we have already noted, she is in excellent condition for business, having just been thoroughly overhauled, repaired and repainted.

The Wild Duck and New York were loading at St. Louis for Pittsburgh on Tuesday.

The St. Louis *Republican*, of Tuesday, says: George Williams, the popular and talented clerk of the Frank Pargoud, was the victim, on Saturday, of misplaced confidence. It appears that at New Orleans a party shipped three barrels of what was signed for as whisky, and registered himself as a passenger for this port, the amount due for his passage being entered as charges for the bill of lading for whisky. On the arrival of the boat at this port the shipper disappeared, and it was concluded to sell the whisky for freight and charges, and the agent, Col. Baker, was instructed accordingly. The Colonel opened one of the barrels for a sample, on tasting which, however, the Colonel declared emphatically that it was "a new drink on him." Various experts were called in, and it was finally decided the liquor was nothing else than Mississippi water. The other barrels proved no better, and, as a consequence, the Pargoud is minus passenger and freight money, and Col. Baker is plus some valuable information in the liquor business.

A S. Louis dispatch, under of Monday, says: River still declining. The upper rivers are in fair condition. On the lower rapids there is four feet of water, and more everywhere else. Arrivals and departures of steamers continue liberal, with excellent freight and passenger trips. Nearly 7,000 tuns of freight left this point for New Orleans last week. The Ida Stockdale, Huntsville and Adkins have arrived from Benton. The Antelope and Octavia, from Benton, passed St. Joseph yesterday. The latter brought from Fort Stevenson to Fort Randall Wm. Barry, the soldier who shot and killed Capt. Speer, of the English army, on that boat on her way to Benton last year. She also brought down the parties who bought the wreck of the Amelia Poe, they having been driven off by the Indians and compelled to abandon their design. Missouri rising. Upper Mississippi falling.

Another one of same date, has the following items: Arrived—Savannah, from St. Paul; Key City, from Dubuque; Glendale, from Pittsburgh. Departed—Davenport, for St. Paul; Marble City, for Memphis; Isabella, for Omaha; Melnotte, for Cincinnati. River still falling, but there is a good stage of water to all points. Weather clear and warmer. Galetea reshipped her Upper Mississippi freight, and will probably lay up here. It is said that the Barge Company will enter into the Memphis and Vicksburg trade in connection with their New Orleans business. The snag-boat De-Russy, has reached Miller's Landing, Missouri river. She has thus far pulled out some eighty snags, one of them 114 feet long, 21 feet in circumference at the butt, and 14 at the top.

A St. Louis dispatch says the license of Nicholas Heisler, as first class engineer on the Steamer Tacony, was revoked for violating the United States law, by forcing boilers beyond the limited pressure.

The Louisville *Democrat* has a rumor that Capt. Sam. Hildreth and others were negotiating for a charter of the steamer St. Mary's to run in the Cincinnati and Madison trade.

We clip the following items from the Cincinnati *Gazette*, of Tuesday: The St. Charles, yesterday, reshipped 1,406 kegs nails for St. Louis and 694 kegs for Madison Louisville and Evansville—all on the Lady Grace. The St. Charles has quit the Pittsburgh trade and will lay up.

The Wauanita left for St. Louis, last evening, and will take 500 bbls cement at Jeffersonville. She had her new chimneys painted while lying here. Pilots R. G. Shinkle and Albert Williamson.

The America, St. Louis to Pittsburgh, passed up yesterday, after discharging a small lot of freight here. Pilots, the brothers Poe.

THE look is more and more that Mr. PENDLETON and Mr. CHASE will both fail of commanding two-thirds of the votes in the Democratic Convention, and consequently be set aside in favor of Mr. SEYMOUR or even some nonentity of the FRANKLIN PIERCE order.

A DELEGATION of Cincinnati Democrats are to receive refreshments at the depot at the hands of the members of that party in this city. The old coffee pots used in days of yore to refresh rebel prisoners on their way through the city will again be brought into service by their fair owners.

THE DEMOCRATIC editors of Western Pennsylvania, having contributed their full share towards establishing the Republican ascendency throughout this region, are so decidedly enamored of the situation that they are anxious to intensify. Hence, their zeal for Mr. PENDLETON and the greenback humbug.

SO FAR as Democrats have participated in the movement for Mr. CHASE, they appear to have been actuated by a desire to kill off Mr. PENDLETON rather than anything else. Having secured, as they think, that end, they are now casting about for the available third man who shall supercede both. They may find him in Mr. SEYMOUR.

MR. JOHNSON, after his efforts to rally the democrats in favor of his re-election, is as clearly deserted by them as was TYLER or FILLMORE. They "like the treason, but despise the traitor." As human nature is constituted, it always will be so. A man who betrays his friends, is never trusted by those in whose behalf he displays his baseness.

MR. JOHNSON threatens, in a few days, to throw the whole influence of the Administration against the Democracy in case his claims to the nomination for the Presidency are ignored at the Convention in New York next July. Mr. JOHNSON has a strong party working for him, and the whole influence of the Woolley whisky ring will be used in his behalf.

IT IS NOT IMPROBABLE that the Democracy will unite on ANDREW BURTT as their standard bearer for Congress in opposition to GEN. NEGLEY. Like MR. CHASE, MR. BURTT has equal claims on their support and suffrages. The material being exhausted in their own party, it is not surpassingly strange that they should select candidates from among weak-kneed Republicans.

THE SOUTHERN PEOPLE are rapidly becoming convinced that the Northern Democrats care nothing for them, or for any principles touching public policy, but are ready to adopt or reject negro suffrage and equality according to the chances presented for securing a presidential election. It is well, even at this late day that those people should understand correctly the character and disposition of the men upon whom they have been leaning for support.

THE FACT that a large and influential section of democrats seriously urge their National Convention to nominate Mr. CHASE for President, seems to illustrate how far the current of events during the last eight years has swept old issues into oblivion. The democrats are even somewhat uncertain whether they will howl against negro voting or go in for Universal Suffrage; and they are equally undecided whether they will insist upon paying bonds in greenbacks or specie.

THE Democrats begin to suspect that what Mr. CHASE is after is not so much their success as his own. Hence, they now talk of demanding from his friends, as a condition precedent to allowing his name to come before the National Convention, that they will squarely support the nominees, whoever they may be. This is a point well taken. But Mr. CHASE'S friends will give the pledge, and afterwards do as they please. They are slippery customers, and used to many forms of political deceit.

THE CONNELLSVILLE RAILWAY—WORK BEGUN.

We are very much gratified to learn that fully one-third of the second million has already been subscribed to the bonds of this Company, most of it by prominent and influential citizens of Baltimore, and that large additional subscriptions are confidently looked for. Mr. HUGHART, the efficient and untiring President of the Company, is again in that city, intending to canvass it thoroughly, in which he will be aided by the personal co-operation of Mr. GARRETT, President of the B. & O. Company, and by other leading citizens. It may be remarked that the President and one of the Directors of that Company are individual subscribers for $90,000 already.

The success which is steadily crowning the efforts of these gentlemen, backed by the zealous and powerful aid of the Directors of the two companies, and by outside friends of this desirable connection between Baltimore and Pittsburgh, is already such as to leave no doubt in their councils, of the absolute ability of the company to re-commence the work of construction, assured that it may be prosecuted uninterruptedly until finished. Work has therefore been again resumed, the old contractor having made a beginning on Monday, the 22nd, at the Sand Patch tunnel. Contracts for the entire work, including the tunnel, are to be shortly let, and the operations already resumed are subject to that understanding. The tunnel itself, much the heaviest job on the line, will be completed and arched through its entire length—seven-eighths of a mile—before the expiration of the twenty months from this date, which is to see the entire completion of the line, and an unbroken railway connection established from Pittsburgh through to Baltimore. The Directors have not resumed the operations of construction without a careful consideration of all the questions, financial as well as material, and, having satisfied themselves of their ability to carry the work forward with unbroken, steady vigor to a successful issue, have taken the decisive step, and will not now turn back. No enterprise has a clearer title to the cordial support of the people, not only of the two great cities which are to be connected by its completion, but of the entire intervening region; and we believe, therefore, that the friends of this project will find themselves heartily and promptly sustained by the public.

Congratulating our readers, especially those who are citizens of Western Pennsylvania, upon this auspicious promise for the realization of their hopes in the early completion of the Connellsville Railway, we feel it to be but simple justice to make this public acknowledgment of the very eminent services of the President of the Company, W. O. HUGHART, Esq., in bringing its affairs out of the dark cloud of embarrassment which has heretofore enveloped them, into the present bright hopes, indeed the certainty, of a triumphant issue. That gentleman has contended, and with this ultimate success, against difficulties of no ordinary character. Patient, prudent, untiring, self-sacrificing, he needed to have uncommon nerve to grapple with the legal and financial obstacles which heretofore threatened to block the progress of the work forever. But, one by one, he has taken them in hand, singly and together overcoming them, until now at last, it is only Nature which interposes her material barriers, and these are beginning to give way. The 1st of April, 1870, will see the Connellsville Railway finished, and the man to whose energy and fidelity we owe it will have deserved better of his fellow citizens than if he were the hero of a battle-field.

But no amount of righteous indignation can alter the fact that the electoral votes of the Southern States will be counted in the Presidential election. The Southern Presidential electors will be chosen under the direction of the new State governments. —*N. Y. World.*

The wonder is, not that the *World* should state thus clearly the course of the inevitable future, but that so many of the country journals of the same party should still persist in their insane protestations against the count of the reconstructed States in the Electoral College. They must be as crazy as JOHNSON or GARRETT DAVIS on this point, not to perceive, with the *World*, the futility of any efforts to exclude the Southern people from the rights which they are now admitted to enjoy.

The *World* also proposes to exclude even the consideration of any questions upon that point in the Convention. It says, "This is not a question for the Democratic Convention, but for the white citizens of the Southern States. It would be out of place for a Convention to tell them that they ought or ought not to vote." It characterizes the stupid Copperheadism of those Democrats, North or South, who clamor for "a white man's government" in the following vigorous language:

The contest is to be too close to justify much vaporing or gasconade. The ugly circumstance which "casts ominous conjecture" on the result, is the certainty that the Southern States are to vote, and to vote under the new rule of negro suffrage. To shut our eyes to this unwelcome fact, or to belittle its importance, or to assume that a Democratic victory is certain in spite of it, would be an exhibition of blind folly and presumptuous self-confidence.

With this stinging rap upon their thick skulls, we trust we shall hear nothing more of this vaporing, gasconade or blind folly from the minor Democratic press.

CONGRESS has done decidedly well in postponing all action upon bills granting subsidies to Pacific Railroad Companies until next year. If the Government was out of debt it would, doubtless, be not only prudent, but eminently well for Congress to grant the three or four hundred millions of dollars which would be required of it to complete these enterprises. With the existing enormous debt pressing upon the people, the Republican party would commit political suicide by voting these immense appropriations.

This determination does not affect the Union Pacific Railroad Company, operating westward from Omaha, for the Government, some years ago, pledged its aid for the completion of that line. Some or all of the other lines, and in particular the Eastern Division of the Union Pacific, having its eastern terminus in Kansas, will be aided sooner or later; but for the present they will all be constrained to wait.

THE AMERICAN RAILWAY SYSTEM.

The whole story of American railways is detailed at length, and with complete precision, by Mr. HENRY V. POOR, in his "Manual of the Railroads of the United States, for 1868-'69," a copy of which is before us. This manual shows their mileage, stocks, bonds, cost, earnings, expenses and organizations; with a sketch of their rise, progress, influence, &c., with an Appendix containing a full analysis of the debts of the United States and of the several States. As a full and reliable compendium of the facts and figures which go to make up the Railway System of this country, no public man, no journalist, financier or well instructed citizen can afford to be without this book.

The coming July 4th will be forty years since the construction of the Baltimore & Ohio road, the first railroad in the United States, was commenced. Three years later, the first locomotive used in this country was put in operation by the same company. The year 1867 closed upon 39,244 miles of road constructed and operated within the limits of the Union, and to this at least 600 miles have been added in the six months since intervening. The ratio of mileage of railroads to population has been reduced from one mile of the former to 7,415 of the latter in 1840, down as low as 1 to 905 in 1867. In the Western portion of the Union it is still lower, being 1 to 766. The average cost of these 39,844 miles has been about $41,000 per mile, making an aggregate of about $1,600,000,000, estimated for the most part on the amount of their capital accounts, but the stocks and bonds have not probably yielded more than 75 cents on the dollar. The share capital bears to the debt of all the roads about the ratio of three to two. These roads earned last year $340,000,000, ranging from $19,247 per mile for the highest down to a very low figure. The rates of gross earnings to cost was about 23 per cent. last year, some roads largely exceeding this, and one even going as high as 57 per cent. This ratio of earnings to cost is increased yearly, as the figures for the former swell rapidly with the advancing material progress of the people. The gross tonnage moved was 78,568,000 tons, of which over 48,000,000 tons were of merchandize, estimated to be worth $7,273,200,000. Almost the whole of this merchandize tonnage has been the creation of the last fifteen years. On three great roads, the New York Central, Erie and Pennsylvania, it has grown in ten years from 2,347,280 tons to 9,152,010 tons, or nearly 300 per cent. One-half of the total increase of tonnage moved dates since 1860. The ratio of expenses to gross earnings is fully 70 per cent., and Mr. POOR thinks it not likely to be diminished so long as construction accounts are suffered to remain open. The net earnings of the last year were about $100,000,000. The per centage of net to gross receipts in this country is small compared with other countries, but the net returns upon cost are largely in the American favor. It cost, last year, $140,000,000 to move the freight tonnage, estimating it at 1½ cents per ton per mile; a reduction of one-eighth of a cent per ton per mile would have saved $12,000,000. The extent of *possible* reduction in the cost of freight transportation is a problem yet unsolved, but of vast importance to the material interests of the nation.

FINANCES OF PENNSYLVANIA.

It is stated that the necessary arrangements for making the payments due from the Treasury July 1st, will be seasonably matured. These disbursements will be quite large, as appears by the following exhibit derived from the *State Guard*, from official documents:

The amount of over due loan unpaid on the 30th of November, 1867, was	$2,587,978 55
On which there has been paid to this date	2,263,602 26
Leaving still due and payable on presentation	674,376 29
Of the loan due July 1, 1868, there was outstanding on Nov. 30, 1867	1,896,434 88
The treasury has paid on this loan	709,586 47
Balance of loan due July 1, 1868	1,156,848 41
Making due July 1	1,831,224 70
The interest due on the 1st of July and 1st of August is about	940,000 00

SENATOR HENDRICKS, who begins to be spoken of among the half-score of candidates for the Democratic Presidential nomination, is a native of Muskingum county, Ohio. But even that will not ensure his success. His name, like those of most of his competitors, is understood to be used only for the purpose of dividing the PENDLETON strength. Judge CHASE continues to gain ground at the South, the extreme fire-eaters only opposing him. As to his Northern supporters, a Washington letter says:

"No great importance is attached here to the sudden turn taken by the New York *World* against the Chief Justice. There are letters in town from the proprietors of the *World*, written since the publication of its anti-Chase articles, expressing a desire for and expectation of his nomination. The explanation given of its articles on the other side is, that it was desirable to shake off from the Chase movement some undesirable elements that were attaching themselves to it. Fishy as this looks, there are many who believe it. The more rational theory is that the Chase movement was taken up by the New York men merely as a means of killing off Pendleton; and their present danger is said to be that the Pendleton men may be goaded into using it as a means of killing them off."

MR. CHASE started out, in his present pursuit of the Presidency, apparently resolved to pay at least a formal respect to consistency and to the primary doctrines of human rights, in the defence of which he attained eminence as a publicist. He insisted that the Democrats, if he gave them the influence of his name, should consent to couple Universal Suffrage with Universal Amnesty. As he grew eager in the chase, and saw more distinctly that this was probably his last chance, he resolved to drop the Universal Suffrage part of his proposition, by remitting the granting thereof to the States respectively, well knowing that in many of them that would be the last of it for half a century.

Mr. CHASE is not the first eminent statesman who wrecked a great reputation through unquenchable ambition to reach the Presidency. Mr. SEWARD and Mr. WEBSTER both passed under the same deep eclipse.

THE CHARTIERS VALLEY RAILWAY.

The friends of the Chartiers Valley Railway, at a late meeting held at Canonsburg, appointed a committee to visit the city of Pittsburgh, and ask the aid of her citizens in the resuscitation of this work. By a vigorous effort along the line of said road they have subscribed to the stock of the road upwards of $210,000, and desire to increase that sum to $300,000, with which amount subscribed by local interests they have the assurance of its early completion by the present owners. Will not the citizens of Pittsburgh at once come up to the aid of the citizens of Washington and Allegheny counties, to open up such a rich valley of agricultural and mineral wealth, which, as their natural market, will flow into the city? It is not expected that they will give large sums to this work, but if those who are to be directly benefitted by the completion of this road will give a helping hand, the road will be made. The manufacturers, grocers, and business men of all descriptions are deeply interested in this work. A large trade is diverted from our city, which, were the proper facilities for its direction and concentration afforded, would help swell the commercial statistics of Pittsburgh. Thus the orders for heavy manufacture, such as glass, iron, nails and machinery, are awarded by the merchants and citizens of Greene county and those of the central and southern portions of Washington county, to Wheeling, inasmuch as more direct rail facilities are afforded to reach that city, while Pittsburgh is approached only by a muddy outworn pike, which is death to horse flesh and destructive to wagons. Then again, all the lumber of those counties, and the amount shipped is quite large, finds a channel to market through our rival city down the Ohio. If the Chartiers road were completed to-day, our city would be materially improved, and our manufacturers and merchants would be realizing the worth of the extensive and profitable trade they have kept so long from their doors through a want of proper enterprise. We sincerely hope that the gentlemen of the Committee who will call on our citizens to contribute the deficit of $90,000, which will secure the prompt and early completion of the road, will receive a generous response, and that the sum will at once be subscribed.

A SENSIBLE SOUTHERNER.

From a letter written by Judge B. F. PORTER, of the Second Judicial District of Alabama, and who is also a native of that State—written to the great Montgomery Grant ratification meeting, we extract the paragraphs below. The axiom that the wisest statesmanship is identical with good common sense, was never more clearly illustrated than in the observations which conclude this letter. He writes:

As an individual, I will give Grant and Colfax an earnest support. It is the ticket of reconstruction under the Constitution and laws of the United States, of peace, and of obedience to the authority of the Union.

General Grant has been the instrument, under Providence, of closing the war of a revolution with which, while I had many local and personal, I held no political sympathies. I shall hail him, as he advances to deposit his sword upon the altar of perpetual peace, as one whose administration will obliterate the Mason and Dixon line of discord, and allay forever the spirit of dissension and civil war.

The clamors of negro supremacy, which assail this Presidential ticket, receive no countenance from me. No man in his senses, in the South or elsewhere, need fear that in this intelligent country, and in this Christian age, intellectual and moral power will not reach the apex of the temple of liberty and hold it. It is the storm of revolution which brings ignorance and corruption to the surface of society. In times of peace and of submission to the law, they sink to obscurity, and control no nation's destiny. Civil equality is not personal or social degradation. With very great respect, your obedient servant, BENJAMIN F. PORTER.

THE Democracy of Philadelphia are not as docile a party as their brethren of Allegheny county. While everything is here left, as a matter of course, to the management of a wire-pulling clique who make candidates and enunciate principles, or dispense with both as they think fit, the rank and file of the party contentedly accepting any policy that is endorsed by their leaders, a greater independence is exhibited at the other end of the State. For the proof of this read the annexed paragraph from the *Press* of the 23d:

The Democratic delegate meetings yesterday were attended with the usual amount of bloodshed, disorder and rioting which characterize the assemblages of that party. A full list of the killed and wounded, so far as reported up to midnight, will be found in our local columns. The casualties of the later morning, and the results of the fights in the suburban districts, will be given to-morrow.

THE NEW PROPOSITION FOR IMPEACHMENT, as proposed by HON. THAD. STEVENS, embraces four articles, as follows:

The first impeaches Andrew Johnson for a high misdemeanor in violating the Constitution of the United States by making Provisional Governments in the Southern States without the consent of Congress, etc. The second impeaches him for a usurpation of the pardoning power, both in the cases of rebels and of deserters from the Union army, whom he pardoned for the special purpose of enabling them them to cast their votes at a pending election in a loyal State. The third impeaches him for a high crime in using the patronage of his office to obstruct the laws of Congress in the Southern States. The fourth and last impeaches him for a corrupt use of the patronage of his office in the elections which have taken place within the last three years in the various States of the Union.

It is hardly necessary to add that these articles will not be adopted by the House at the present session, nor would it be profitable to speculate upon the possible results had these been substituted, four months since, for those upon which the trial was had.

"Agate" writes from Washington to the Cincinnati Gazette the following:

"The refusal of Governor Seymour to permit the use of his name as a Democratic candidate left that party at sea in New York and other Eastern States. The reason of this refusal is very well known here, and there is is no reason, I imagine, why it should not be known at the West. Gov. Seymour is believed to have a hereditary tendency to insanity; and he has been warned by his physicians that the excitement of a Presidential campaign would most probably develop the disease, and that at any rate the labor and harassing cares of the first year of Presidential aspiration would be almost certain to do it."

The New York World on General Grant.

Gen. Grant's last brilliant campaign sets the final seal on his reputation. It stamps him as the superior of his able antagonist, as well as of all the commanders who have served with or under him in the great campaigns of last year. However it may seem during the progress of his great combined campaigns, it always turns out at last, when it reaches that completeness and finish in which he contrives to have his campaigns end, that we see him standing in the foreground, and that the grouping is always such that the glory of the other Generals instead of eclipsing his own gives it additional lustre. It is this sureness of judgment which sees precisely where lies the turning point; which sees precisely what are the objects that justify the utmost stretch of persistence; it is this ability to take in the whole field of view in just perspective and due subordination of parts, that is the mark of a superior mind. Gen. Grant has taken out of the hands of all critics the question whether it belongs to him. He has won his greatest triumphs over the most skillful and accomplished General on the other side; over a General who foiled him long enough to prove his great mastery of the art of war; and the completeness of whose defeat is a testimony to Grant's genius, such as a victory over any other General of the Confederacy, or even an earlier victory over Lee himself, could not have given. Apply to General Grant what test you will; measure him by the magnitude of the obstacles he has surmounted, by the value of the positions he has gained, by the value of the fame of the antagonist over whom he has triumphed, by the achievements of his most illustrious co-workers, by the sureness with which he directs his indomitable energy to the vital point which is the key of a vast field of operations, or by that supreme test of consummate ability, the absolute completeness of his results, and he vindicates his claim to stand next after Napoleon and Wellington among the great soldiers of this century, if not on a level with the latter.—*N. Y. World, April 11th, 1865.*

A NEW and unexpected danger threatens the South. The white race are doomed to poverty, ignorance, and extinction, while the blacks will become educated and prosperous. This alarming peril is revealed through the columns of the Richmond *Examiner* and *Enquirer*. It is said there that "owing to the poverty of the whites and the superior advantages afforded the blacks by the Bureau and the Association societies of the North, the probability, nay the almost certainty, is that the end of the century will see a race of educated and prosperous blacks, in the midst of a race of ignorant, squalid, and nearly barbarous whites." We cannot believe that this is a true prophecy. Certainly there is no such intrinsic superiority of the negro over the white man as would lead us to expect him to make any such relative advance in wealth and civilization. Besides, this writer overlooks the fact that the new Constitutions of the Southern States uniformally provide for a system of free schools, in which all classes of children will be provided with education at the public expense. We are convinced, therefore, that these gloomy anticipations are out of place. If either race is destined to go down in the free struggle for existence, it is the black, and not the white.—*N. Y. Sun.*

THE Philadelphia *Press* says: The political condition of Pennsylvania is represented as better than at any period since Lincoln's re-election. There is an evident determination among the earnest Republicans not to jeopardize the cause by personal disappointments or selfish aspirations. The canvass promises to be most thorough; and when the campaign opens the best speakers will take the field. If under such circumstances the rebel Democracy can carry Pennsylvania, they will be more fortunate than they have ever been before.

DO NOT BE DECEIVED.

When the system is once affected it will not rally of its own accord; it needs help—it must be strengthened and invigorated; this is especially the case when the

KIDNEYS, BLADDER OR URINARY ORGANS

Are affected. For immediate relief and permanent cure,

DR. SARGENT'S

Diuretic or Backache Pills

Are a perfectly safe and reliable specific. This well known remedy has effected a large number of speedy and remarkable cures, and have never failed to give relief when taken according to directions.

Dr. Sargent's Backache Pills

Are purely vegetable, and contain no mercury or calomel. They do not exhaust the system, but on the contrary they act as a tonic, imparting new tone and vigor to the organs and strengthening the whole body. These Pills have stood the test of thirty-five years, and are still gaining in popularity.

LET US PROTECT OURSELVES.

The physical structure of the strongest human being is vulnerable everywhere. Our bodies are endowed by nature with a certain negative power, which protects them, to some extent, from unwholesome influences; but this protection is imperfect, and cannot be safely relied on in unhealthy regions, or under circumstances of more than ordinary danger. Therefore, it is wisdem; it is prudence; it is common sense to provide against such contingencies by taking an antidote in advance; in other words, by fortifying the system with HOSTETTER'S STOMACH BITTERS—the most complete protective against all the epidemic and endemic maladies that has ever been administered in any country. As a remedy for Dyspepsia, there is no medicine that will compare with it. Whoever suffers the pangs of indigestion, anywhere on the face of the earth where HOSTETTER'S STOMACH BITTERS can be procured, does so voluntarily; for, as surely as truth exists, this invaluable TONIC and ALTERATIVE would restore his disordered stomach to a healthy condition. To the nervous it is also especially recommended, and in cases of confirmed constipation it also affords speedy and permanent relief. In all cases of fever and ague the BITTERS is more potent than any amount of quinine, while the most dangerous cases of bilious fever yield to its wonderful properties. Those who have tried the medicine will never use another, for any of the ailments which the HOSTETTER BITTERS professes to subdue. To those who have not made the experiment we cordially recommend an early application to the BITTERS whenever they are stricken by disease of the digestive organs.

CURE OF FISTULA.

DR. KEYSER: I write to thank you for your kindness and scientific management of my disease, for which I called to consult you some time in January last. You will remember that I had a complication of diseases, which finally ended in a terrible fistula, which I had been advised to "let alone," on account of a harassing cough, which it was feared might fasten it on my lungs. I knew that the peculair mode of treating diseases like mine was by a cutting operation, which, if successful at all, would naturally throw the disease upon the lungs or some other vital organ, on account of the suddenness of the cure and the immediate check to the discharge, which I believed was a salutary provision of nature to get rid of some morbid condition of the system. I feel perfectly satisfied that your method of treatment, purifying the system, and local applications to the fistulous part, must cure, if anything could, without cutting, which I find it did, and I am happy to report myself well in every particular, with sounder and better health than I have had for years. I would also add that the applications you made were almost painless, and have left me a new man, with all the energies and vigor of restored health.

Yours, gratefully, I—— C——.

DR. KEYSER'S CONSULTATION ROOMS FOR CHRONIC DISEASES, No. 120 PENN STREET, from 9 A. M. UNTIL 3 P. M.

June 17th, 1868.

MRS. MYRA CLARK GAINES offered to compromise with the holders of her New Orleans property, and has issued the following card: "After thirty-five years of litigation, which has terminated fully, finally, and in every particular, in my favor, by the decision of the Supreme Court of the United States, rendered in April, 1868, I now again, as in former years, reiterate my desire to compromise on liberal terms, and invite all those who feel disposed to take advantage of this, my last offer, to come forward and enter into a final settlement. The futility of any further opposition will appear obvious."

SECURITY AND COMFORT FOR

THE TRAVELING COMMUNITY.

J. B. HARRIS' SAFETY FIRE JACKET,

Car Heater and Moderator,

For SMOKE AND HOT AIR FLUES, dispensing with the use of Stoves and Fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached.

Having obtained of the United States Letters Patent for a Safety Jacket which is warranted to resist the most intense heat that may be adplied to it in the position and purpose for which it is intended. It is a sure protection from accidents by fire, originating from defective flues, or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c., wherever pipes as conductors are made dangerous by being overheated and security desired. I will sell, on application, rights to manufacture or to use the above invention; also, territorial rights, to such as may wish to engage in selling privileges, either by State or county.

One Stable, **20x24** feet, **16** feet high; Blacksmith Shop and other outbuildings. This land is underlaid with stone coal and iron ore, and it has plenty of never-failing springs of water, besides the creek running through the entire premises, and will be sold cheap and on easy terms, to a good man with a little money.

These lots embrace a full square of ground, fronting **200** feet on Bedford avenue, and bounded on each end by a wide street, with an **18** feet alley in the rear. On the premises is a pump of lasting and excellent water, and the surface of the lots is level and needs neither filling nor grading to prepare them for building purposes, and being in a section of the city where property is increasing very rapidly in value, make them desirable for an investment, especially as the present houses rent for enough to pay a good interest on the sum asked for the whole property. Call soon on the undersigned and secure a cheap, safe and paying investment.

Also, A FARM OF **160** ACRES of good land, situated in East Wheatfield township, Indiana Co., Pa., **90** acres of which is cleared land, in good cultivation, **20** acres being in excellent meadow. The improvements are a two-story frame dwelling house of **4** rooms, a frame bank barn, **36x60** feet, with stabling underneath, and other outbuildings, all in good repair. It is in a good neighborhood, convenient to schools, churches, stores, &c., and will be sold very low for cash or approved securities.

Also, a RIVER BOTTOM FARM of **75** acres, **19** miles from the city, in Elizabeth township, Allegheny county, Pa., on the Youghiogheny river, one-half mile from Elrod's Station, on the Connellsville railroad; near churches, schools, stores, &c., in the flourishing villages of Boston and Green Oak. The improvements are a two-story brick house of six rooms, hall and cellar, a good frame bank barn with stabling underneath, and other outbuildings; a well of good standing water at the door, and several standing springs of water on the farm, and an orchard of **700** trees of selected fruits of apples, cherries, pears, peaches, quinces and grapes. This property being located near the line of the railroad, within one hour's ride of the city, makes it very desirable for gardening or a dairy farm; it is also a good and beautiful location for country homes near the city, lying immediately on the river, on the opposite side from the railroad. The West Newton Accommodation and other trains on the railroad afford certain and frequent opportunities of daily communication to and from the city. Will be sold as a whole or in lots of one acre or more, to suit purchasers.

Also, A FARM OF **173** ACRES, situated in St. Clair township, Westmoreland county, Pa., near the line of the Pennsylvania Railroad at Houston Station. The improvements are a two-story frame house, with six rooms and good cellar, a frame bank barn **40** by **60** feet, and other outbuildings. There is on the place a young apple and peach orchard; **120** acres cleared land, divided into fields of convenient size, a large portion of which are well set in clover and timothy; the residue of said tract covered with good timber. It is well watered and underlaid with coal and limestone, and is convenient to churches, schools, stores, mills and blacksmith shops. A real good bargain is offered in this excellent farm; and with it will be sold all the personal property on the premises, consisting of horses, cows, stock cattle, hogs and poultry, harness, gears, wagon, plows, farming implements and household and kitchen furniture. Together will be sold very low and on easy terms, to a responsible purchaser.

Also, a desirable and very fertile Tract of Land of **158** ACRES AND **25** PERCHES, in Elizabeth Tp., Allegheny county, Pa., on the line of the Hempfield railroad, and one and one-half miles from the Connellsville railroad at Suter's Station. On this farm are **40** acres of superior white oak timber, which alone is now worth one-half the price asked for the whole tract. The improvements are a log house, frame barn, good fencing, and an apple orchard of good fruit. It is well watered and underlaid with limestone and flag stone of a superior quality, with stone coal for the use of the farm.

Also, The best FARM in Fairfield township, Westmoreland county, Pa., of **250** ACRES, about six miles south of the Pennsylvania Central Railroad at Bolivar Station. The improvements are two large hewed log dwellings; one of the largest and best frame barns in the township; two apple orchards, in good bearing condition; corn crib, wagon-shed and other outbuildings. The whole farm is under a high state of cultivation; fencing all in first rate order, and the land of the best quality of limestone soil, about **200** acres of which is cleared and the residue of the tract in good timber, such as white oak, rock oak, hickory, walnut and beech. FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, June 24, 1868.

The gold market betrayed signs of weakness yesterday and to-day; quotations having reached several times 140 to 140¼, although an attempt was made to sell at 140⅞, at which rate a few sales took place for the sake of establishing quotations. Few speculators have the hardyhood to buy on the probability of seeing a higher market soon, and importers are determined to buy, so long as the government has not paid out a considerable amount of coin coming from the treasury for interest.

Goverment bonds were weak to-day, except 1881s, ten-forties and 1865 five-twenties, old, of which there is a considerable short interest created for the purpose of running down quotations, as soon as the gold market begins to get old. The conversons of seven-thirties is going on more rapidly but there is time yet to July 15th.

Stocks are dull and lower, and the well-informed parties of Cleveland & Pittsburgh stock find themselves a little puzzled at not seeing this special favorite stock jump to par, although it is a better investment now than it was six months ago. Express shares are dull and lower. Mining shares inactive.

Boarder State bonds are still in demand and rising; they are next to Pacific Railroad bonds, the cheapest securities in the market, and much in demand.

Money is scarcer, although business is inactive.

Closing quotations as received by Ph. R. Mertz, were as follows:

Gold, 140¼; 1881 bonds, 118; 1862 5-20s, 113⅝; 1864 do, 111⅛; 1865 do, 111⅛; new, 1865 and 1867, 114; Ten Forties, 107¼; Seven Thirties, 110¼.

New York Central, 134⅜; Erie, 69; Michigan Southern, 91⅞; Cleveland & Pittsburgh, 90½; Northwestern, common, 69; Preferred, 79½; Chicago & Rock Island, 105⅝; Pittsburgh & Fort Wayne, 111½; Ohio & Mississippi Certificates, 30½; Merchants Union Express, 26¾; Western Union Telegraph, 35; Corydon, 34; Quicksilver, 25; Quartz Hill, 1,15.

—Closing quotations received by James T. Brady & Co.:

Gold, 140¼; U. S. 6's, 1881's, 117¾; 5-20's, 1862, 113⅛; 5-20's, 1864, 111¼; 5-20's, 1865, 111¾; 10-40's, 107¼; 5-20's, January and July, '65, 114; 5-20's, January and July, '67 114¼; June 7-30's, 110¼; July 7-30's, 110¼; May Comp., 1865, 119,-30.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, June 24, 1868.

CRUDE—The market was decidedly feverish to-day, and operators appeared to be even more feverish, if such a thing were possible. There was but comparatively little done, and prices seem to be drooping here, while an advance is reported at Oil City, $4,80 to $5 being the quotations at that point. The sales here were: 500 bbls, on spot, at 12¼c; 1,000 for July, seller's option, at 12¼, and 4,400 bbls, in tank, on spot, at 12c. Spot oil may be quoted at 12 12¼c, while for future deliveries it is impossible to give quotations in the present condition of the market. The stock of spot oil in the hands of dealers and on sale, is ported light, but it is equally true that the supply seems to be up to the demand.

REFINED—The market for bonded oil was very quiet, but a single sale reported. 500 bbls for the last half of August at 32c. June may be quoted at 30c; July, 30½ to 31c; August, 31½ to 32c; August to December, 32 to 32½c, and August to October, 32½c. There appeared to be considerable inquiry for August to October at quotations, while August to December, or the last six months, is a little dull, and, if anything, a shade lower. For the early months, there is some inquiry, but sellers are scarce, and, so far as we can learn, the offerings generally are light. Refiners do not seem inclined to sell until they have first secured crude enough to cover, with a margin in view, which they allege, is almost out of the question at present, and this accounts for the limited number of offers to sell.

ARRIVALS—But two arrivals reported, 480 bbls for Leech & Wood, and 50 for J. McFarland.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, June, 24, 1868.

The general markets continue exceedingly dull, with but little indication at present of any immediate improvement. We do not expect to see an increased business until after the harvest has been secured and the crops begin to move, and this seems to be the impression generally entertained. Nor does the stagnation seem to be restrictod to any one branch of business; manufacturing interests are also very dull, though our manufacturers seem to be pretty comfortably situated, having realized on the accumulation of last winter's stocks, and, as yet, have but very little capital locked up in goods which very often have to be carried for months at a time. It is said that at no time for several years has the iron interest of Pittsburgh been so strong, as at present, and, while in this, as in everything else, business is dull at this time, there has been a good trade during the spring, and there is every appearance that there will be a heavy business done in the fall.

GROCERIES—The grocery market has been dull during the past week, and while the volume of business, in the aggregate, has been light, there has been no change in prices worthy of special notice. We continue to quote as follows:

GRAIN—Winter Wheat is scarce and in fair milling demand at $2,25 to $2,30 for Red, and 5 to 8c higher for White. Oats steady, with sales on track at 78 to 80c, and the usual advance for small lots in store. Corn is dull and unchanged at $1 to $1,05, as to quality; there is no margin to ship anywhere. Rye, in the absence of sales, may be quoted at $1,55 to $1,60.

POTATOES—Prime Peach Blows are still selling at $1,20 to $1,25 per bushel. New Potatoes $6,00 to $6,50 per bbl, and dull.

SEEDS—There is a steady demand for Flaxseed at $2,50 to $2,55, and but little offering.

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, June 24.—Dry Goods in fair inquiry for all staple styles of cotton, particularly brown and bleached goods, with a reduced supply. Certain styles of heavy unbleached sheetings scarce, such as Atlantic A, Appleton and Indian Head; Pequot A sell readily at 17½; Atlantic H, Pacific H and Stark A bring 17, as do the Pocassets, Canoe, Wachusett and Amoskeag A; the Amoskeag B sells at 18½; Atlantic P at 14½; Howard A and Massachusetts A at 15½. CHURCH IMPROVEMENTS.

Welsh Calvinist Church.

The spirit of improvement, which has been so marked in this city during the past year, has evinced itself more fully in church property than in any other class. New church edifices of the most approved modern styles are being erected throughout this city and Allegheny, and the old ones, wherein our parents have worshipped for the last half century, without even thinking any change necessary, are being remodeled and refurnished in order to keep pace with the rapid progress of the times. Among the many buildings which have undergone a change in this respect we notice the Welsh Calvinist Church, on Second street, between Smithfield and Grant. The structure was originally a dark, dingy, uninviting place, built and arranged after the old English style, without regard to neatness in appearance or comfort. The desk or altar was situated at one side of the room, and the seats ascending from the center to each corner of the building, each seat occupying a level of its own and rising one step higher than the one in front of it. The inside of the building has been completely remodeled and is now fitted up in style, having the appearance of both neatness and comfort. The altar has been changed to the back end of the building, and the seats are arranged in the usual style, with two aisles extending from front to rear. The floor descends from the entrance to the altar several inches, raising each seat a trifle higher than the one in front of it. New seats of a comfortable pattern, neatly painted and grained in oak, take the place of the uncomfortable high backed benches. The windows have been enlarged, adding greatly to the outside appearance of the building as well as to the comfort and convenience of the interior. The walls and ceiling have been neatly covered with tinted paper of a light blue color, dark columns enclosing each window. Many other changes have been made, among which is a heavy ornamental cornice on the front of the building, and the consequences is that a complete transformation has been effected, so complete that if some of those who worshipped there ten years gone by were permitted to return, they would certainly think they were not in the right place.

Manchester Presbyterian Church.

The renovation and refitting of the Manchester Presbyterian Church, Rev. J. E. Wright, corner of Franklin and Market streets, which has been under way for some time past, has at length been completed. The congregation seem to have done their work on the principle that whatever is worth doing at all is worth doing well, and as a result they have now, both externally and internally, one of the neatest and most cheerful places of worship in this vicinity. Commencing with the outside of the building, the old and rather dingy looking walls have been freshened up with a coat of light green colored paint, producing a complete change in their appearance; the bell tower has been repainted and surmounted with two small gilded globes, while Lockhart's copper lightning rods protect the structure from all danger by the electric fluid.

Inside the improvements are of a more extensive character. All the walls and ceilings have been tastefully tuscoed, the pulpit painted and grained in dark oak imitation, carpeted with the finest Brussels, and furnished with a sofa and two gothic backed sofa chairs, while on either side a handsome bronze gas stand furnishes the necessary light. The old railing around the gallery at the west end has given place to paneling of a very pretty design, which is in itself quite an improvement. The seats have all been painted a light stone color tapped with red, and grained in light oak imitation on the side. All the aisles, the vestibule and lecture room have been covered with beautiful figured tapestry carpet. In the center of the ceiling is a large gasolier, said to be the invention of a trustee of the church, John B. Chambers, Esq., comprising sixteen reflectors, which throw a very brilliant light over the whole auditorium. To make the work of refitting complete, one of the largest sized and sweetest toned Mason & Hamlin cabinet organs has been purchased, which will hereafter fill the house with melody and add to the fervor of praise. Taken altogether, the congregation have made a complete transformation in their temple of worship, and they certainly deserve the highest credit for their energy and perseverance.

First German Lutheran Church.

The congregation of the First German Lutheran Church, one of the largest in the denomination, Rev. Frederic Schiedt pastor, design building a new and commodious church on the corner of Madison avenue and Liberty street, Fourth ward, Allegheny. The work of excavating for the foundations, which will be laid this season and allowed to settle through the winter, was commenced a few days ago.

The edifice, of which Mr. Balph, of Allegheny, is the architect, will be built of brick, Gothic in style, one story high, fronting sixty-two feet on Madison avenue and running back one hundred and eighteen feet on Liberty street. The tower, rising one hundred and fifty feet from the ground, will contain a bell and be ornamented with a handsome index. The auditorium, to which access will be had from Madison avenue, through three large arched doorways of stone, will be tastefully frescoed, have cushioned pews, windows of stained glass, a gallery on three sides, and a sacristy in the rear. The whole cost of the structure will not fall far short of $50,000, and when completed it will compare very favorably with any of the best church buildings in our vicinity.

The congregation also contemplate the erection of a large school house and parsonage in connection with the church, but these will not be commenced until after the finishing of the building now under way.

EDUCATIONAL.

Commencement Exercises at Mount Union College—Action of the Trustees and Faculty—Revision of the College Studies—Value of the Sciences and Modern Classics Duly Acknowledged—The Founding of a Museum of Science and Art—Annual Address by the Chief Justice of Ohio—Graduateins—Conferring Degrees, &c.

The recent Commencement exercises of Mount Union College have been of unusual public importance. The large and appreciative audiences, not only at the public addresses, anniversaries of the Literary Societies, at the Senior orations, but also during the successive days of examining the classes, attest how well each performed his part.

At the annual meetings of the Faculty and Trustees, conclusions were reached and plans adopted which had taken years to prepare. The courses of study after careful examinations both in America and Europe, of the actual claims of the respective branches of a liberal education, were revised so as to adapt them to the legitimate demands of the age, and the increasing importance of the sciences and modern classics. Though the full ancient classical course is retained for those who prefer it, yet the fundamental classical course omits after the preparatory and freshman year the more unimportant portions of the dead languages,, and adds the French and German classics and a more extended course in Mathematics, English Literature, and the Modern Sciences. Two Professorships were established—one in the French and German languages, the other in Commercial Science—for the business education of persons of both sexes. A museum of Science and Art was founded by the trustees, containing collections illustrative of the several branches of Natural Science, Fine Arts, Agriculture and Ethnology. Besides valuable additions to the Chemical, Philosophical and Astronomical apparatus, valuable collections for this museum, especially in Mineralogy, Geology, Botany, Zoology and the Fine Arts, were selected in Europe by the President of the College.

Lewis Miller, of Akron, Ohio, was elected President of the Board of Trustees, and C. Aultman, of Mansfield, Treasurer. The College year was so changed as to make a Fall term of twelve weeks, a Winter term of sixteen weeks, and a Spring term of fourteen weeks, to commence respectively on the third Tuesday of August, November and March of each year. No additional charges were made for the French and German languages, and the tuition for Instrumental Music and the Sciences was reduced.

The annual address before the Board of Trustees was delivered by Luther Day, Chief Justice of Ohio. The Baccalaureate Sermon was delivered before the body of students by Rev. W. Cox, D. D., of Mount Union, Ohio. The Baccalaureate Address to the Senior Class was delivered by Rev. O. N. Hartshorn, L.L. D., President of the Faculty. The Alliance band and the choirs of the Linnaean and Republican Literary Societies furnished music for the various public occasions.

By vote of the Faculty and Trustees the Bachelor's Degree was conferred upon the following Senior Class: S. H. Cravens, East Springfield, O.; M. Fording, Alliance, O.; M. B. Gant, Greensburg, Pa.; W. B. Grace, New Philadelphia, O.; C. Grumbling, Brush Valley, Pa.; G. D. Hill, Post Washington, O.; H. Hilles, Mt. Union, O.; L. H. Hole, East Rochester, O.; E. P. Murdock, Newark, Mo.; E. MEDICAL.

A GREAT CURE OF ASTHMA.

I feel myself under obligations to you, as well as a duty I owe to others who have been like sufferers with myself, in order that they may know where they can get cured. I had been subject to violent, continued attacks of ASTHMA for more than six years, and had been to great expense and to various medical men of experience without obtaining any permanent relief, or relieved at all. I was so bad that I never knew what it was to be free from the disease. I had to sit up in bed every night for weeks and weeks, without any prospect or hope of cure. My condition was such that I felt life a burthen, and when I got an attack I felt in danger of suffocating every moment. So terrible had been my suffering that my mother says that she has seen me so near suffocation that I was nearly black in the face from the desperate efforts made to get breath. In the cold winter nights, many a night, with the doors and windows of the house thrown wide open, in order to hinder the apparent danger of strangulation. In this condition, on the 13th of October, 1866, having heard of DR. KEYSER'S skill in curing this disease, I called on him, in company with my husband, Joseph Meyers, but I must confess with a great deal of doubt as to effecting a permanent cure. DR. KEYSER examined me carefully, and my lungs all over, with his LUNG SOUND, and told me that with care I would get well. I persevered with his medicines for over a year, and am to-day in vigorous health, and totally FREE FROM THE ASTHMA, and its terribly disagreeable attendants. I have had, once in a while, a slight attack of the disease, but I regard my health as entirely re-established, and if I do have any attack, a few doses of the Doctor's medicine immediately relieves it. I cannot feel too thankful for the exemption from a disease which used to cost me whole weeks and months of loss of sleep, besides suffering which none but those who are subject to this disease can fully appreciate or describe.

NANCY MEYERS,
MARY MOUNT JOY, (her mother,)
GEORGIANA FISHER.

Birmingham, Dec. 9, 1867.

The case of Mrs. Meyers, recited above, is one of more than ordinary importance, because of the violence of the attacks, their continued length, and the great prostration of all the vital powers attending the disease. Any one who knew her during the time she was a sufferer from the disease of which she was cured, and will look at her now, the very picture of robust health, cannot but admit that the cure is one of more than ordinary character, inasmuch as we hear of Asthma every day of our lives, being a disease of an incurable nature. Let those who doubt investigate for themselves.

SIGHT RESTORED.

The case to which we allnded some weeks ago, of Christiana Fisher, of Beaver county, is now entirely confirmed by the appearance of Miss Fisher herself, who to-day called on DR. KEYSER in person, to thank him for his kindness and skill in restoring her to ENTIRE AND PERFECT SIGHT. Miss Fisher has been nearly blind for four months. She was so blind that she could not distinguish any object so as to make out what it was. The case is remarkable, as hundreds of cases like her's are doomed to never-ending darkness, on the flimsy pretext that there is no cure, and nothing can be done. She was under DR. KEYSER'S treatment for two months, and before she applied to him, through her brother, Simon P. Fisher, slight hopes were entertained of her ever getting her sight. Her case is well known in the neighborhood where she resides, and has been regarded as one of extraordinary recovery. We, the undersigned, know of the cure of Miss Fisher, and bear willing testimony to the fact above stated.

The case above referred to was entirely cured by medicines to purify the blood, and it is witnessed by scores of persons who have known Miss Fisher, and have a knowledge of her total restoration to health and the recovery of her sight, as the accompanying letter of her brother sets forth:

DR. KEYSER—This is the list of names that I have to your advertisement of the cure of my sister, Christiana Fisher. They were all willing to put their names down, and were very much astonished to see that you brought her sight so soon. My mother sends her thanks to you; she says "you are one of the greatest men in the world." She says if we had not come across you she believes her child would not be living at this time. We all join in sending our love and respects to you.

PULMONARY CONSUMPTION, RESULTING FROM PLEURISY, CURED.

Statement of GEORGE FORD, carpenter, of No. 16 Sampson street, Allegheny City:

I took a violent attaak of pleurisy, in May, 1866, which left me with a cough lasting all summer, wearing away my strength and gradually undermining my health. During this attack of pleurisy I had several physicians of the highest reputation in the city. After I had partially recovered from the pleurisy, I was advised to go into the country, which I did, and when there I called in a doctor, who told me my left lung was affected, and that if something were not done soon I would die of CONSUMPTION. I lingered on from this time until about the middle of June, my cough and lung disease gradually growing worse, and I weaker every day, and almost despairing of ever getting well. In this state of despondency, and knowing the general belief of the incurability of Consumption, and having heard of cures made by DR. KEYSER, and seeing his advertisement in the newspapers, I was induced in October last to call on the Doctor at his office, 120 Penn street, and had him examine my lungs with his "LUNG SOUND." He told me the upper lobe of my left lung was very much diseased, but he thought with great care and the perseverance in the use of his medicine, I would get well. At the time I called on Dr. Keyser my pulse was over one hundred and thirty beats in a minute, and I was generally prostrated, and had to cough night and day. I commenced the Doctor's treatment in October, with a feeble, broken constitution, and continued it faithfully until the present time. The Doctor's medicines helped me from the very start, and I could gradually feel myself getting stronger, and my cough and expectoration lessening. I have gained greatly in flesh, and consider myself well; all the rattling of my lung has ceased, and my general health is in every way good. All my relatives and friends know of the advanced stage of my disease and my extraordinary recovery. One of the medicines given me by DR. KEYSER was a medicine called LUNG CURE, which I took in connection with the other treatment.

GEORGE FORD.

PITTSBURGH, March 30, 1868.

ANOTHER CURE OF CONSUMPTION.

Statement of John G. Wigham, of Turtle Creek, Allegheny county:

I was discharged from the United States army in January, 1866, on account of a wound in the head, from a shell, and a disease which the army physicians pronounced CONSUMPTION. I had a terrible cough, and fell away in strength and flesh, and was unable to do anything. Shortly after my return from the army, I made application to a physician of my neighborhood, and afterwards to another in Pittsburgh of high reputation, whose remedies I used faithfully for five months, without any benefit whatever, but rather grew worse, and wasted in flesh and strength every day. In August, 1866, my mother took me to DR. KEYSER, of 120 Penn street, whose skill in such cases like mine had been highly spoken of, and put myself under his treatment. The Doctor examined my lungs very carefully with his LUNG SOUND, and told me that my left lung was badly diseased at the upper part, but if I was careful he thought he could cure me by following his directions closely, which I did from that day to this. I gradually improved under DR. KEYSER'S medicines from the first week I commenced to take them, and my general health has improved, and my chest, where it was sunken away, and where it pained me, has become full and strong and free from pain. I can now do a full day's work, and take great pleasure in giving my testimony in favor of DR. KEYSER'S treatment and medicines.

CITY AND SUBURBAN.

Daily Prayer Meeting—From 12 M. to 12:30 o'clock at the Methodist Church, Fifth street, next door to GAZETTE office.

Allegheny Councils.—A regular meeting of the Allegheny City Councils will be held this evening.

Repairing.—Workmen are engaged in repairing the floor of the Smithfield Street Suspension Bridge.

Completion.—The spire on the Lutheran Church, on High street, has been completed. It is quite an imposing piece of architecture.

Recovered.—Alderman Mullen, of the Third ward, Allegheny, who has been sick for some time past, has recovered and will be found at his post.

Assault and Battery.—William Rogers made information against James Wickenshaw before Alderman Thomas yesterday charging him with assault and battery. A warrant was issued for his arrest.

The Old Folks' Concert to-night, for the benefit of the Fifth Street Methodist Church, promises to prove the grandest affair of the season. The most eminent talent of both cities will participate.

Not Numbered.—The houses in the south side boroughs are not numbered. It would certainly be a great convenience to business men and the citizens generally if those on Carson street, at least, were numbered.

Capt. Donaldson, of the steamboat Republic, has been adjudged guilty of homicide by a Coroner's jury sitting on the body of a negro, at St. Louis yesterday. His many friends in this city will deeply regret the occurrence.

Boarding House Thieves.—The boarding house of Mrs. Robinson, Robinson street, Allegheny, was entered yesterday morning by some sneak thief, who broke open the trunk of one of the boarders and abstracted $55 from it.

Beer Hall Robbed.—Yesterday morning Fred. Einstein's beer hall was entered by some pilfering thief while the proprietor was lying asleep at the door, and the money drawer broken open and robbed of its contents, amounting to twenty dollars.

The Fourth of July.—A petition, numerously signed by the principal business men of the city, has been presented to the Mayor, requesting him to issue a proclamation prohibiting the use of fire works and firearms in the city on the Fourth of July.

Diamond Ear Rings.—Yesterday we had the pleasure of looking at a set of ear rings set with one diamond stone in each ring that cost twenty-two hundred dollars in gold. They were on exhibition at J. R. Reed & Co.'s jewelry store, Fifth street.

The Festival for the benefit of the Ross Street M. E. Church, in Lafayette Hall, still continnes. Those of our readers who desire to enjoy a nice dish of ice cream or strawberries, while they at the same time aid a worthy cause, should remember Lafayette Hall.

Completed.—The double track on the Pittsburgh and Birmingham Passenger Railway will be completed to the Postoffice switch, at Groesvnor street, Birminghan, and a connection made Friday morning, after which the double track will be used to that point.

Disorderly Conduct.—Mrs. Shiedaker was brought before Alderman Mullen, of Allegheny, yesterday, charged with disorderly conduct, on oath of Miss Augusta Linstade, who alleges that the defendant threw a bucket of hot water over her. Case settled on payment of costs.

Committed.—William Phillips, charged on oath of William Anderson with the larceny of a pocket diary containing a five dollar bill, a coupon ticket on the Pennsylvania Railroad and some fractional currency, was arrested yesterday and taken before the Mayor, who committed him to jail in default of bail for a hearing.

Slight Fire.—A slight fire occurred yesterday in one of Mr. Quinn's houses, in a Court off High street, between Webster and Wylie. The fire originated in the roof, from a defective flue. The alarm was given from Box 27, at Grant and Webster streets, and the fire department responded promptly. The flames were extingnished before any damage was done.

Larceny of a Watch.—Patrick Ragan made information before the Mayor yesterday, charging John Bird and others with larceny. He alleges that he was taken into a drinking saloon on Webster street, Third ward, where he got drunk, and that while asleep, his watch valued at $50 was taken. Bird was arrested, and is in the lock-up waiting a hearing.

Insane.—Mrs. Annie Crawford, the insane woman arrested at the Union Depot Tuesday, an account of which we published yesterday, was taken home by her husband, but escaped again the same evening and came to this city. She was arrested and taken to jail with a view of having the case brought before the Court in order to have her sent to the Hospital.

Attempted Suicide.—Mrs. Jung, residing on Third street, in the Third ward, Allegheny, attempted to commit suicide yesterday afternoon by cutting her throat with a razor. It appears that she has been sick for some time, and has been very much depressed in spirits for several days past. She succeeded in cutting a serious gash in ker neck, which may yet prove fatal.

Alleged Larceny.—William Price made information before Alderman Thomas, yesday, charging Joseph Fink with larceny. He alleges that he was drunk on Tuesday, in East Birmingham, and feeling sleepy laid down in Puter Cuff's stable and went to sleep, when his pocket book containing four dollars was taken from him. The accused was arrested and held for a hearing.

Trover and Conversion.—Robert Ormsby made oath before Alderman Taylor yesterday, charging William Gilmore with trover and conversion. Ormsby alleges that Gilmore retains possession of two trunks containing clothing beionging to him, notwithstanding an offer in the presence of witnesses of the amount of two weeks boarding, which is the lien against the property. A warrant was issued.

Fatal Accident.—On Monday evening last a little son of Thomas Livstetter, aged about two years, while playing in his father's house, on the corner of Lacock and Sandusky streets, Allegheny, tripped and fell, striking his head with so much force against the floor as to cause him to be thrown into spasms. Drs. Willard and Rosseau were called in, but despite all their efforts death ensued on Tuesday.

Commencement.—The commencement exercises of St. Mary's Academy, one of the most worthy of the educational institutions in charge of the Sisters of Mercy, were held yesterday in the Convent chapel, on Webster street. The young ladies evinced rare scholarship and training, and all in attendance were pleased and delighted with the manner in which they acquitted themselves in the very interesting entertainment afforded.

Robbery on Penn Street.—Yesterday morning the house of John Schribner, a saloon keeper at 588 Penn street, was entered by burglars and robbed of one hundred and five dollars in gold and silver, and fifty-five dollars in paper money. The money was taken from a bureau drawer in a bed room in the back part of the house. The thieves effected an entrance from Spring alley to the back yard, and broke open the window with a "jimmy."

The Apotheosis of the Strawberry.

If the reader is inclined to shudder at the faint trace of irreverence in our use of an expression which implies the deification of any creature, he will be good enough to remember that, while really to be construed only in the poetic sense, the term is not very extravagantly out of the way in the estimate of any one who yesterday availed himself of the catholic liberality with which that high-priest in the temple of Pomona, Mr. Knox, bade all admiring worshippers of this loveliest of her fruits, to assist in celebrating the annual rites in her praise. For Pomona, Goddess of fruits, bestowing the strawberry-mark of her maternal love upon the most beautiful of her children, fitly named it Jucunda and gave it the highest place at her altar.

The writer made one of a party of some forty or fifty gentlemen, horticulturists, amateur and professional, journalists and other distinguished citizens who, yesterday, assisted at the annual festival with which our friend Mr. Knox celebrates the return of the strawberry-time, and calls about him the most capable experts to witness and pronounce upon the fresh triumphs which his skill and patience have won, within the past twelve-month, from a generous and grateful Nature. We passed through his extensive plantations, threaded the mazes of the vineyards, lingered step by step over the broad acres where the coquettish strawberry—most luscious and healthful of fruits—half conceals, half reveals its blushing sweetness to the sun, wandered through fruit-houses, among green-houses, hot-beds, cold-frames, wine-presses, packing-rooms, busy shops and great barns, seeing so much to admire that we were only conscious of how much the brevity of our stolen leisure denied to us a closer examination, and then turned our steps homeward, down from the breezy upland atmosphere where the bright sun of June scorns the contaminations of Pittsburgh air, down from an Eden of almost tropical verdure and of more than Arcadian loveliness, back to the city heat, and smoke, and dust, and noise, and prospect of grimy bricks and blackened stone. Reader, had you soared up with us yesterday into that modern Paradise, which taste, and wealth, and patience, have created just beyond the crest of the hill overhanging the Monongahela, and had you delivered yourself up as voluptuously to the enjoyment of the scene, the higher and purer sensuous pleasures which the true lover of Nature alone knows how to enjoy, you would not wonder a bit that we find it rather tough—this thing of getting down once more to the dull level of the mere work-a-day world. But down we must!

Though it be getting rather late elsewhere, we found the strawberry season at its height at the Knox farm. This is due to the skill and care which have developed new varieties, some maturing early, and others ripening late, and still more again carrying in kindly harmony upon one stalk the great ripe berries, almost heart-sick in their perfected sweetness, and the hard green germs of fruit that yet need more than a week of courtship from the sun. The display on the vines was admirable; but that of the different varieties, evidently not selected with any special care, upon the long tables in an upper hall, was really magnificent. The peerless Jucunda—Knox's greatest triumph—there reigned at home, a queen in her own realm by birthright, regal in her blonde beauty. Next to her, supporting her, the Fillmore, a brunette as dark as if reared under a Southern sun, served not as her rival but as her perfect foil, and up and down the tables were ranked and grouped and mixed some fifty others of the hundred or more varieties of the strawberry. All the old favorites were there, eclipsed by new and more brilliant rivals, but still honored with a remembrance of what they had been. The display was, taken altogether, such as no other one man in America could make, in the line of this specialty.

Mr. Knox has nearly two hundred acres of land, an upland plateau, of limestone-clay soil, devoted to the culture of small fruits and berries for the markets, and to their propagation to supply orders from every quarter of the country. He employs about a hundred work-people, of both sexes, old and young, his pay-roll, winter and summer (for the work on such a farm varies, from month to month, only in kind, not in degree,) is about $3,000 per month, he sends away hundreds of bushels of fruit daily to the most distant markets, having his own telegraph connection with the city, so that he can talk at any moment with his agents in the distant cities, his business in every branch seems to be systematised to precision and he has fairly earned and worthily wears the coronet of the American Fruit King. As the seasons roll around, the strawberry leaf gives place to that of the vine, but from June to November, it is his own crown still.

We might write at great length of the wonderful things which Mr. Knox has accomplished, but time and space equally forbid. It is enough now to say that what he has accomplished by the aids of science, capital and indnstry, on a scale unrivalled elsewhere in America, others may emulate hereafter, perhaps in a less degree, by studying his example. His fruit-farm comprises a world of instruction for the amateur or professional horticulturist, and will repay the visitor for the longest journey.

Executive Committee Meeting.

A regular meeting of the Republican County Executive Committee was held yesterday at two o'clock P. M., in the Grand Jury room at the Court House. There was a full attendance, and the meeting was an unusually large and interesting one.

The meeting was called to order at two o'clock, Hon. Russell Errett in the chair and John H. Stewart Secretary.

Mr. Stewart read letters of acceptance of appointment on the Committee from a large number of persons; also a letter from J. N. Bear, the "Buckeye Blacksmith," in reference to the organization of Grant and Colfax clubs throughout the county.

On motion of Col. Hilands, a Committee of three, consisting of the Chairman, Secretary and William B. Hunter, was appointed to attend to the matter.

On motion, the following named gentlemen were added to the Committee: Messrs. Henry Meisterfelt, David McCutcheon, D. C. Ripley, Jacob Affelder, Louis Morganstern, Josiah Cohen and Joseph Albeitz.

The Committee on Headquarters reported that City Hall had been procured for the use of the Committee during the campaign. The report was accepted.

Hon Galusha A. Grow, Chairman of the State Central Committee, addressed the Committee on the issues of the campaign.

The Committee adjourned to meet at City Hall, which will hereafter be the headquarters, July 1st, at 2 o'clock P. M.

The Committee have not yet completed the appointments of sub-committees throughout the county, but will have them made and they will be announced at the next meeting.

Serious Accident.

Yesterday evening, about four o'clock, Wilson Lee, a boy about fourteen years of age, son of Mr. Lee, of the firm of Atwell, Lee & Co., residing on Federal street, met with a serious accident, by which his leg was broken. He was ascending from Second street to Bluff at the point where the steps lead up the precipice near the river dam, and after reaching the first bench in the precipice, left the steps and attempted to climb up the remainder of the hill beyond them. When he had reached a point about forty feet above the first bench or offset, he missed his footing, and was precipitated to the bench below, where his clothing caught in some brush and prevented him from falling further. The cap of his left knee was broken, and he was otherwise seriously injured. He was carried to the residence of his father by some men who had seen him fall, where he received proper medical attention.

Second U. P. Church, Allegheny.

The congregation of the Second U. P. Church, of which Rev. John B. Clark is pastor, contemplate making extensive improvements in their house, corner of Stockton avenue and Sandusky street. The work was commenced a few days ago and will be pushed forward as rapidly as possible. It is designed to raise the present structure adding another story underneath. The raising of the building, a rather delicate job, has been undertaken by Mr. Hollingwood, of Chicago, who did similar work with the Tremont House and several large blocks of buildings in that city, and who engages to have it completed in fifteen days from the time of commencing. The additional story thus created will be fitted up in a handsome manner, and used as a lecture and Sunday School room, in the rear of which will be several smaller rooms, one for the pastor's study, and the others for the large Bible classes of the Sunday School.

The whole front of the present building will be torn away and a new one, extending fourteen feet further forward to within ten feet of the pavement, will take its place. In this addition will be the vestibule, with winding stairs leading to the audience chamber, which will be refitted and furnished throughout. The small space in front will be laid off in a neat grass spot, and enclosed with an iron railing. After the additions and repairs have been completed, the whole building will undergo a thorough painting, which will materially beautify its appearance. The estimated cost of the alterations is two thousand dollars, and when finished, the church will compare in architectural style and handsome and imposing appearance with any of the modern structures of this character in either city.

Chartiers Railroad.

We have hitherto noticed that the Pennsylvania Railroad had given out that it would push forward and complete the Chartiers Valley Railroad to Washington, Pa., if the sum of $300,000 be subscribed to the capital stock by those interested in the project. The conditions for the payment of this sum is that 25 per cent. of the subscription be paid when one fourth of the road is constructed; 25 per cent. more when one-half of the road is finished; 25 per cent. more when three-fourths of the road is completed, and the remaining instalment when the road is in successful running order. At a recent meeting held in Canonsburg, the following gentlemen were appointed from Washington county to visit Pittsbargh and solicit from our manufacturers and business men the balance of the $300,000 required for the completion of the road ($90,000), Messrs. Hon. John H. Ewing, John Johnson, C. M. Reid, C. Ritchey and William McDaniel. These gentlemen held a meeting at the St. Charles Hotel yesterday and strengthened themselves with the following Pittsburgh additions to the committee: Hon. James Blackmore, Messrs. J. F. Slagle, George B. Neal and Harry Shirls. These gentlemen will call on our citizens for subscriptions to the work and we trust will receive generous encouragement.

Dollars, Dimes and Duty.

The excellent self-sacrificing ladies, who manage so judiciously the affairs of the Home of the Destitute, one of our most efficient and beneficent public charities, opened yesterday, at City Hall, their sale of fancy articles and daily lunch. In a brief visit during the day, we witnessed the profusion of good things to be enjoyed—Strawberries, Ice Cream and Cakes, with an elegant display of Boquets. The inside of the Hall is fragrant with sweets for the eye and the palate. The sale and entertainment is to be continued through this day and evening. The place is so pleasant and attractive, and the object one that should touch every heart, that we cannot see how our readers can forego the pleasure or the duty of visiting the Hall, and making glad the hearts of the destitute by filling their treasury with Dollars and Dimes.

Allegheny County Agricultural Society.

The Board of Managers of the County Agricultural Society held a meeting yesterday at No. 10 St. Clair street. Present—Messrs. Kelley, Jennings, McKelvy, McKee, Chess, Anderson, and Capt. John Young, Jr., President.

The premiums for the County Fair were completed and ordered to be printed for general distribution.

The fair will be held on Tuesday, Wednesday, Thursday and Friday, October 6th, 7th, 8th and 9th, at the Society's grounds, near City Park.

The Board adjourned to meet on Wednesday, at 10 o'clock A. M., July 8th, to hear the report of a special committee appointed to procure a supply of water for the fair.

False Pretence.

James Painter, of Temperanceville, made information before the Mayor, yesterday, charging Thomas Jefferson Painter, a colored man, with obtaining money under false pretences. The information states that he obtained $100 from the prosecutor by representing that he owned a lease on a lot in Temperanceville, and that he offered to assign the lease to him as security for the money, and that he afterwards sold said lease with an intention to cheat and defraud. Rather a strange case of false pretence this. The testimony of the prosecutor, as contained in the information, is evidence that there was no false pretence at the time the money was obtained. The case won't "hold water."

Threatened Him.—Isaac Fairfax, a colored individual, alleges before Alderman Mullen, of Allegheny, that Walter Stevens, driver of a brick wagon, threatened to kill him with a brick. Compromised, each party paying half the costs.

Another Confidence Game.

Frank J. Kraig, a resident of St. Mary's, on the Allegheny river, has been the victim of a confidence game, if his story can be relied on, which is as follows: He alleges that about ten o'clock last night, while waiting in the depot of the Allegheny Valley Railroad for the train in which he was to take passage for Oil City, a young man, giving his name as S. P. Silley, stepped up to him, and after passing the compliments of the season, entered into a conversation after ascertaining the destination of Kraig. Silley, it is alleged, said he was going to St. Mary's, and that he had a lot of machinery, cog wheels, &c., which he was shipping to a Mr. Smith, of that place. Upon Kraig remarking that Smith was a friend, Silley began to be more communicative, and told his new acquaintance that he need not purchase any tickets if he had not done so already, as he had a couple of passes which would do for both. At this junction a tall, well dressed man stepped up, who was introduced to Kraig as Wm. Hulton, Esq., the freight agent of the road. After some further conversation the reputed agent remarked to Silley that his freight had all been shipped, and that he had better examine if it was all right, and then settle the bill, which was $50. After looking at the freight the shipper pulled out his pocket book, but found he had only $15 in cash. He had, however, a bond for $2,000, which he offered as security to Kraig, for the advancement of the deficiency, which he took after some parleying, counting out in the dark the desired amount, as he supposed, but which, his friend said, after counting it over, was only $29; however, would have to do. Kraig was then directed to go to the other end of the platform and watch a trunk, belonging to his acquaintance, while he got the bill receipted in the office. Just as his back was turned, the two men disappeared between the cars and were gone. He acquainted a police officer at the station of the circumstances, who at once pronounced the whole affair a swindle, and directed him to go to the Mayor's office, where he could procure lodgings for the night, as he had no more money. While on his way down, going along Smithfield street, he met the men going the other way. Following them until they came across a policeman he had both of them both arrested. At the watch-house they were searched, but very little money was found, not enough to cover the amount lost. They were remanded, and will have a hearing to-day.

Real Estate Transfers.

The following deeds were filed of record before H. Snively, Esq., Recorder, June 24th, 1868.

Same day seventeen mortgages were filed of record.

Grand Mass Convention of Soldiers and Sailors.

An enthusiastic meeting of the Conservative Soldiers and Sailors of the Twenty-third District, for the purpose of electing delegates to the Philadelphia Convention and ratifying the action of a similar body convened in Pittsburgh a short time ago, was held in Bepler's Hotel, Diamond, Allegheny.

The Convention, consisting of ten delegates and three reporters, came to order at half-past eight o'clock, Wm. Cowling presiding, with Mr. McGratty as Secretary. After reading the Pittsburgh Convention's action, choosing the same representatives, and listening to a speech from a Mr. Moore, who seemed to think with Petroleum V. Nasby that the policy of the party should be: the Democratic party as it has, as it is and as it shall be, the meeting adjourned.

Amusements.

OPERA HOUSE.—Under the management of Mr. Hahn, the Opera House has been doing a flourishing business, and we presume will continue to do a paying business until the season closes. "The Last Ditch" has been a decided success so far, and will doubtless continue to draw large houses while it is kept on the stage.

THEATRE.—Mr. and Mrs. Joe Sefton are at present playing an engagement at the Old Theatre, and are drawing large houses. The Seftons have always been favorites here, and their friends have not forgotten them. There are numerous other attractions at the "Old Drury," all of which appear to be fully appreciated by the amusement loving public.

A Merited Promotion.

At a meeting of the Directors of the Farmers' Deposit Bank, held last evening, Mr. Frank L. Stephenson was elected Cashier. Mr. Stevenson has been connected with the bank for several years in the capacity of Teller, and his promotion to the position of Cashier is an evidence that his services are fully appreciated by his employers. He not only possesses superior business qualifications, but is honorable, courteous and genial in his intercourse with his friends. The promotion was a merited one, and it is gratifying to Mr. Stevenson's friends to know that he is held so high in the estimation of his employers.

False Pretence.—Christian Viess made information yesterday before Alderman Mullen, charging Charles Becker with false pretence. He states that the defendant procured a pair of shoes from him, valued at four dollars and a-half, representing that fifty dollars was due him from the proprietor of a boat yard in Manchester, and that he had bought a lot in Pittsburgh, on which some money had been paid, which representations the prosecutor believed to be false. The accused was arrested, and after paying for the shoes and the costs of the case, he was released.

Cross Suits.—John Loukmann made information yesterday before Alderman Mullen, charging James and Philip Loukmann with assault and battery. He alleges that the defendants knocked him down and beat him severely. The difficulty originated from a discussion in regard to a female acquaintance of the parties. In return, Jas. Loukmann made information against his brother John for malicious mischief, alleging that on Saturday evening the defendant came to his shop and kicked the door in. Both cases were finally settled by each party paying half the costs.

Western University.—The Commencement exercises of the Western University take place to-morrow at 7½ P. M. In addition to the usual orations of the graduating class, there will be orations by Messrs. John R. Wightman and W. J. Sawyer. The regular annual meeting of the Alumni Association takes place this evening at 7½ in the University Chapel.

Rare classical works, new and second hand, at Col. J. D. Egan's popular book and periodical store, Sixth street, near Smithfield.

Pittsburgh Female College.

The Commencement exercises of the graduating class of the Pittsburgh Female College was inaugurated last evening in the College Chapel, a large and appreciative audience being in attendance. After an eloquent and fervent petition addressed to the Throne of Grace by R. E. Snyder, the exercises commenced. Essays in English were read by Misses Savilla Renney, Ida McKnight, Maggie Whitesell and Cora Fisher. All of the young ladies developed in their mental offerings richly stored minds, correct channels of thought, beautiful and elevated styles of diction, and a store of clear concisive language. The Latin salutatory of Miss Eliza C. Myers was delivered in a masterly manner, and the few classical persons in attendance were delighted with its purity and beauty, no one being able to detect a mispronounced or misplaced word. Miss Augusta Mitchell read a French essay which was said to have been very good by those familiar with that language. Vocalizations and instrumentations of exquisite character were rendered by Misses Endsley, Kimball, Bowman, Darrah, Clark, Caples, Crummy, Wilson, Brown, Ernest, Ella Kimball and those finished musicians Prof. and Mrs. Blessner.

To-night the exercises will close. Miss Mary E. Radcliff will deliver the valedictory and Rev. C. Dickey will address the graduates, after which the usual honorary degrees will be conferred. Doubtless there will be a large attendance, as the admittance is free and the refined and intellectual are invited to be present.

Soldiers' League Pic-Nic.

The annual pic-nic of the Allegheny County Soldiers' League comes off to-day at Monitor Grove. Every arrangement has been made by the Committee of Arrangements, with a view to the pleasure of the visitors, and a general good time may be expected. Trains will leave the Federal street depot, Allegheny, hourly, after eight o'clock this morning. The object of the pic-nic is to raise funds for the League Library, which, aside from the pleasure afforded by a visit to the Grove, deserves the patronage of the public. Tickets have been placed at one dollar.

Most Bitters of the present day that are loudly puffed through the newspapers as having great curative properties are vile compounds and base impositions, containing no medicinal virtues whatever, and are really very poor whisky beverages, and, instead of acting as a stimulant and tonic, have a tendency to weaken the stomach by entirely destroying the coating. The public should therefore be very cautious and purchase none but *Roback's Stomach Bitters*, which have stood the test as a remedial agent for many years, and are really as their name indicates, a *stomach bitters* and *not a beverage*. They combine the properties of the best tonic and a stimulant—a laxative, an efficient and anti-bilious agent and the best stomachic known to the world, and when taken in conjunction with *Roback's Blood Pills*, are the safest and surest preventive against all bilious derangements, thoroughly regulating the whole system and giving tone to the digestive organs.

They are highly recommended as an invigorating tonic to mothers while nursing, increasing the flow of milk, and for convalescents, to restore the prostration which always follows long-continued sickness, they are unsurpassed. No household should consider themselves safe from the ordinary maladies without these invaluable medicines. They can be obtained of any druggist. TTSF

War or no War, the ladies cannot neglect their beauty. Gentleness and kindness are excellent things in their way, but it takes beauty to inspire heroism. Just now presents are "all the go." Lovers going to the war send mementoes to their sweethearts which is of course a very proper thing.

The difficulty is that the right kind are not chosen, at least so I have been told lately by several pretty girls, who honor me with their confidence. One has promised to give me one of her sweetest kisses if I will only hint to stupid young men, that good things for the toilet are always in season, such as Joseph Burnett & Co.'s Cocoaine, Florimel, Kalliston and Oriental Tooth Wash; the first being the best preparation for the hair extant; the second the most delightful perfume, the third the most effectual Cosmetic, and the fourth the most reliable preserver and beautifier of the teeth and gums. Some will say that even the pretty ones ought to be thinking of something else just now, yet where is the use of being lugubrious? What if there be some fighting? All will not be killed. There will be quite enough left to admire the beautiful daughters of Eve; aye and the latter will deserve it as much as ever.—*Sear's Review.* TTSW

Testimonial from Hon. John Covode, Member of Congress.

For more than a year I suffered inconvenience from a constant sounding in my left ear. On the 21st of May I applied to Dr. E. S. Aborn, at 134 Smithfield street, Pittsburgh. He relieved me at once, and from that day to this I have had no difficulty of any kind. Truly,
